

# Dehasher Instructions

Windows (English)

## Prerequisites

- [OpenJRE 21](#), [Oracle JDK 21](#), [OpenJRE 8+](#), or [Oracle JRE 8+](#)
- FV Dehasher for Java 8+
- [FV Web Archives \(WARCs\)](#)
- Optional (RARELY NEEDED): [Asset Hash Mappings](#)

## Usage

- Copy the downloaded files into an empty directory.
- Navigate to that directory in File Explorer.
- Install Java.
- Select the address bar, type cmd, and hit enter.
- In the Command Prompt, type “java -jar FV”, then hit tab to autocomplete.
- Hit enter, and wait until the entries save.
